

AgXeed AgBot

Technical Specifications

- 4.1l 4 stroke Deutz Diesel Engine, stage 5 with 115kW / 156hp, max. torque of 610Nm
- 350l diesel tank, 30l AdBlue tank
- Electric driven tracks with a speed range from 0-13.5 km/h
- Optional electric driven PTO (up to 100kW and 700V)
- Optional HighVoltage connectors (up to 100kW and 700V) based on ISOBUS 11783
- 85l/min at 180bar hydraulic pump
- Up to 4 DA proportional spool valves
- Optional Load Sensing
- Three-point front linkage cat 2, 3t
- Three-point rear linkage cat 3, 8t
- Variable track width adjustment between 1.800 and 3.000mm or 1.800 – 3.200mm (range depending on the type of chasse and size of tracks)
- Tracks from 300mm – 910mm width
- Crop clearance 42cm
- RTK GNSS for routing and positioning
- Online, cloud-based planning tool for optimal path planning and machine management
- Empty weight: 6t
